

TODD C. KELLEY, MD, FAAOS, FAOA

Assistant Professor of Orthopaedic Surgery, University of Cincinnati, College of Medicine

University of Cincinnati
Department of Orthopaedic Surgery
231 Albert Sabin Way
Cincinnati, OH 45267-0212
toddckelley@gmail.com
Phone: 513-256-7940

CLINICAL POSITIONS:

UC Health, University of Cincinnati Physicians Orthopaedic Surgeon	July 2010 – Present
Assistant Professor University of Cincinnati College of Medicine Orthopaedic Surgery Department	August 31, 2010 - Present

CONSULTING:

Owner, Operator, Consultant Orthopinion, LLC	DePuy Corin QuVa Pharmapseudicals
---	---

EDUCATION & POSTDOCTORAL TRAINING:

University of Southern California Marshall School of Business Executive Education USC APEX Leadership Certificate Program	2019 University of Southern California
Maryland Adult Reconstructive Surgery Fellowship St. Joseph Hospital, Dave Dalury, MD, Fellowship Director	August 2009-July 2010 Towson, Maryland
Resident Physician in Orthopaedic Surgery Department of Orthopaedic Surgery University of Cincinnati School of Medicine	July 2003-June 2009 Cincinnati, Ohio
Doctor of Medicine University of Illinois at Chicago, College of Medicine	August 1999-May 2003 Chicago, Illinois
Graduate Program	August 1997-May 1998

TODD C. KELLEY, MD, FAAOS, FAOA

Assistant Professor of Orthopaedic Surgery, University of Cincinnati, College of Medicine

Biology and Biomedical Sciences
Washington University School of Medicine

St. Louis, Missouri

Bachelor of Science in Liberal Arts and Sciences

Major in Life Sciences-Bioengineering

Graduated Cum Laude

University of Illinois at Urbana-Champaign

August 1992-May 1997

Urbana, Illinois

LICENSE & CERTIFICATION:

Total Hip Arthroplasty Using CT-Generated Patient Specific Instrumentation	\$6,660

PENDING

COM (Kelley)	\$29,700
College of Medicine	

TODD C. KELLEY, MD, FAAOS, FAOA

Assistant Professor of Orthopaedic Surgery, University of Cincinnati, College of Medicine

Improving orthopaedic health outcomes through smartphone sensing and wearable technology

The overarching goal of this application is to identify psychological and behavioral markers that predict medical adherence and recovery outcomes following orthopaedic surgical interventions.

UC Venture Lab (Kelley)
University of Cincinnati
Mobile Activity and Emotion Smartphone Sensing

\$5,000

The goal of this project is to expand our Mobile Emotion and Activity (MAE) smartphone sensing application to the Android OS platform.

NOT AWARDED

CCTST C5G (Kelley)
Center for Clinical and Translational Science and Training
Delivery of smartphone reminders to improve COVID-19 prevention measures

7/1/20 - 6/30/21
\$17,368

The overarching goal of the proposed research is to test whether “smart reminders” for mask use and handwashing can increase compliance and reduce COVID-19 transmission.

CCTST (Kelley)
Center for Clinical and Translational Science and Training
Predicting Patient Outcomes using Advances in Smartphone Sensing

7/1/20 - 6/30/21
\$40,000

The major goal of this project is to develop improved methods in the use of passive as well as active sensors for obtaining clinical data.

CCTST (Kelley)
Center for Clinical and Translational Science and Training
Healthy Choices for Osteoarthritis

7/1/20 - 6/30/21
\$19,500

The overarching goal of this proposal is to apply research advances in orthopedic mobility aids, nutrition, and brain science to improve patient outcomes, patient education, and health professional education for patients with osteoarthritis.

COM COVID-19 (Kelley)
College of Medicine
Effects of COVID-19 Prevention on Healthcare Delivery and Patient and Provider Well-Being

7/1/20-6/30/21
\$48,612

TODD C. KELLEY, MD, FAAOS, FAOA

Assistant Professor of Orthopaedic Surgery, University of Cincinnati, College of Medicine

The overarching goal of the proposed research is to better understand how these restrictions influence healthcare delivery, its outcomes, and patient and provider well-being.

DePuy (Kelley) 7/1/19 - 6/30/21
DePuy Synthes \$890,000
KINCISE learning curves and their impact on surgeon and patient well-being

The overarching goal of this application is to simultaneously assess the benefits of the KINCISE Surgical Automated System for surgeon and patient physical and mental well-being.

OREF (Kelley) 7/1/19 - 6/30/22
Orthopaedic Research and Education Foundation \$299,750
Mental Health Interventions to Improve Pain Outcomes in Joint Replacement

The overarching goal of this application is to identify behavioral markers that predict long-term pain outcomes and to test interventions aimed at improving LOC and sleep habits.
